DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Dexter Chang on August 25, 2011.

The application has been amended as follows:

As per claim 6, line 8, please replace the term "said" with the term --a-- before the terms "display device"

As per claim 9, lines 4 and 5, please replace the term "the" with the term --a-- before the terms "display device"

Allowable Subject Matter

2. Claims 1-3, 6-15, 17-20 are allowed.

3. The following is an examiner's statement of reasons for allowance: The present invention relates to a program execution system and method wherein, if the scene on a screen of a monitor changes, one event by the movement of a character immediately before the scene change is also reflected as in the scene after its change, without the need to alter the operation while confirming the direction every time the scene changes. The prior art cited disclose a similar system and method, but fails to specifically disclose "a switching is made from a first fixed viewing perspective to a second fixed viewing perspective on said display device and so long as said operation instruction is maintained, the direction of motion of said character in said second fixed viewing perspective is maintained in coordination with the direction of motion of the character on a map in said first fixed viewing perspective at least as determined immediately before the switching is made, and only thereafter, when the operation instruction is changed to another operation instruction, after the switching of the viewing perspective, a direction of motion of the character is calculated based on the second fixed viewing perspective, and its position then determined based on a position of the character and a motion direction from the operation instruction" [claim 1].

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
